S20-4010 and 5010 - Special Topics - BlockChain

Block Chain Class 4010-5010, University of Wyoming, Spring 2020

This is the primary location where you can find

1. Syllabus.

2. Current Homework Assignments.

3. Code you will need to implement assignments.

4. My notes for lectures (just an outline).

Use the green button, "Clone or download" on the right side of the page to bring up the pop-up box. Cut and paste the line that says https://github.com/Univ-Wyo-Education/S20-4010.git

Mac

Start on a Mac with installing "brew", then "git".

Homebrew: https://brew.sh/

Then Git with:

```
brew install git
```

Then at the command line on a Mac or Linux:

```
mkdir -p go/src/github.com/Univ-Wyo-Education
cd go/src/github.com/Univ-Wyo-Education
git clone  https://github.com/Univ-Wyo-Education/S20-4010.git
```

Windows

On a Windows system, install https://git-scm.com/download/win, then bring up a bash shell and:

```
mkdir go
mkdir go/src
```

```
mkdir go/src/github.com
mkdir go/src/github.com/Univ-Wyo-Education
cd go/src/github.com/Univ-Wyo-Education
git clone  https://github.com/Univ-Wyo-Education/S20-4010.git
```

Linux

See: https://gist.github.com/derhuerst/1b15ff4652a867391f03#file-mac-md If you are using other than Debian/Ubuntu for Linux see me and we will work 1-on-1 to get you setup and going.

Important!

If you are sitting in on this class (not registered) then you need to send me an email at pschlump@uwyo.edu so that I have contact information for you. I will send out (or my class assistant Chantelle) will send out email to everybody that we have our our list including the registered students.

Layout

Lectures can be found in `./Lectures`.

Assignments can be found in `./Assignments`.
